## Association Exhibit Listing - Champion sponsorship within the association platform

Notes: When the user clicks the Pfizer logo, they will be directed directly to Pfizer Landing page. Shown on page 5.

The screenshot displays the Juno website's exhibitor listing page. The navigation bar at the top includes links for Home, Schedule, Main Stage, Workshops, Networking, Poster Hall, Exhibitors, and Directory. The page is organized into four distinct sections based on exhibitor type:

- CHAMPION EXHIBITOR:** This section features three logos: Sutter Health Family Medicine Residency Program, Pfizer, and IEEE. Below these logos is a Juno logo graphic.
- PROMOTER EXHIBITOR:** This section features five logos: American Physician Partners, rd results direct, rd mobile, hum BY SILVERCHAIR, and CIMATRI. Below these is another Juno logo graphic.
- PARTNER EXHIBITOR:** This section features seven logos: Sutter Health Family Medicine Residency Program, American Physician Partners, rd results direct, rd mobile, hum BY SILVERCHAIR, CIMATRI, CAESARS ENTERTAINMENT, EXPERIENCE COLUMBUS, CHEST AMERICAN COLLEGE OF CHEST PHYSICIANS, IEEE, and Juno.
- ALLY EXHIBITOR:** This section features seven logos: Sutter Health Family Medicine Residency Program, American Physician Partners, rd results direct, rd mobile, hum BY SILVERCHAIR, CIMATRI, CAESARS ENTERTAINMENT, EXPERIENCE COLUMBUS, CHEST AMERICAN COLLEGE OF CHEST PHYSICIANS, IEEE, and Juno.

**Zoomed Viewed – Association Exhibit Listing - Champion sponsorship within the association platform.**

Notes: When the user clicks the Pfizer logo, they will be directed directly to Pfizer Landing page. Shown on page 5.

The screenshot shows a website interface with a dark purple header. The header contains the Juno logo on the left and navigation icons for 'Live', 'Learning', 'Library', and 'More' in the center. On the right side of the header, there is a search icon, a lightning bolt icon with the text '325 201st Place', and a user profile icon. Below the header is a dark purple navigation bar with links for 'Home', 'Schedule', 'Main Stage', 'Workshops', 'Networking', 'Poster Hall', 'Exhibitors', and 'Directory'. The main content area is light gray and features the heading 'CHAMPION EXHIBITOR' centered at the top. Below this heading are three white rectangular boxes containing logos: 'Sutter Health Family Medicine Residency Program', the 'Pfizer' logo, and the 'IEEE' logo. Below these boxes is a dark blue rectangular box with the Juno logo. At the bottom of the main content area is the heading 'PROMOTER EXHIBITOR' centered, followed by four empty white rectangular boxes.

**Pfizer Vaccines. When the user selects “Approved and Authorized Vaccines” they will land on this page.**

The screenshot shows the Pfizer Vaccines website with a navigation bar at the top. The Pfizer logo is on the left, and the text "This site is intended for U.S. healthcare professionals." is on the right. Below the navigation bar is a light blue banner with the text: "Pfizer recognizes the public concern in relation to COVID-19, which continues to evolve. Click [here](#) to learn how we are responding." The main content area features four promotional cards for vaccines. The top-left card is for Pevnar 20, with the text "NOW APPROVED" and "Click to enter the Pevnar 20™ virtual booth". The top-right card is for COMIRNATY, with the text "Click to learn more". The bottom-left card is for Pevnar 13, with the text "Click to learn more". The bottom-right card is for Trumenba, with the text "Click to learn more". Each card includes a "Click HERE for full US Prescribing Information" link. At the bottom of the page, there is a disclaimer: "The product information provided in this site is intended only for healthcare professionals in the United States. The products discussed may have different product labeling in other countries." and a copyright notice: "© 2021 Pfizer Inc. All rights reserved. PP-PNA-USA-4653".

**IMPORTANT SAFETY INFORMATION AND INDICATION FOR PREVNAR 13® FOR ADULTS**

**IMPORTANT SAFETY INFORMATION**

- Severe allergic reaction (eg, anaphylaxis) to any component of Pevnar 13® or any diphtheria toxoid-containing vaccine is a contraindication
- Immunocompromised individuals or individuals with impaired immune responsiveness due to the use of immunosuppressive therapy may have reduced antibody response
- In adults, the most commonly reported solicited adverse reactions were pain, redness, and swelling at the injection site, limitation of arm movement, fatigue, headache, muscle pain, joint pain, decreased appetite, vomiting, fever, chills, and rash

**INDICATION**

- In adults 18 years of age and older, Pevnar 13® is indicated for active immunization for the prevention of pneumonia and invasive disease caused by *Streptococcus pneumoniae* serotypes 1, 3, 4, 5, 6A, 6B, 7F, 9V, 14, 18C, 19A, 19F, and 23F

**Limitations of Use and Effectiveness**

- Pevnar 13® will only help protect against *S. pneumoniae* serotypes in the vaccine

Please see full Prescribing Information for Pevnar 13®.

**IMPORTANT SAFETY INFORMATION AND INDICATION FOR PREVNAR 13® FOR INFANTS & YOUNG CHILDREN**

**IMPORTANT SAFETY INFORMATION**

- Severe allergic reaction (eg, anaphylaxis) to any component of Pevnar 13® or any diphtheria toxoid-containing vaccine is a contraindication
- Immunocompromised individuals or individuals with impaired immune responsiveness due to the use of immunosuppressive therapy may have reduced antibody response
- Apnea following intramuscular vaccination has been observed in some infants born prematurely. Vaccination of premature infants should be based on the infant's medical status, and the potential benefits and risks
- In infants and toddlers, the most commonly reported serious adverse events were bronchiolitis (0.9%), gastroenteritis (0.9%), and pneumonia (0.9%)
- In children 6 weeks through 17 years, the most commonly reported solicited adverse reactions were injection site tenderness, redness, or swelling, irritability, decreased appetite, decreased or increased sleep, and fever
- In children 6 years through 17 years of age, Pevnar 13® is administered as a single dose

**INDICATIONS**

Pevnar 13® is a vaccine indicated for active immunization for the prevention of disease caused by *Streptococcus pneumoniae* serotypes 1, 3, 4, 5, 6A, 6B, 7F, 9V, 14, 18C, 19A, 19F, and 23F

In children 6 weeks through 17 years for invasive disease caused by the 13 serotypes, and for children 6 weeks through 5 years of age for otitis media caused by 7 of the 13 serotypes only (4, 6B, 9V, 14, 18C, 19F, and 23F)
