

```
%macro ML_Create_Meta_Reset / store source des='V1.0.0.1';  
%*****
```

```
FILENAME: ML_Create_Meta_Reset.sas
```

```
DEVELOPER: (b) (6)
```

```
PLATFORM: SAS 9.1.3 and 9.2 on PC
```

ASSUMPTIONS: This macro will be included in listing templates, prior to the first call to ML_Create_Meta.

DESCRIPTION: This macro will remove a macro variable, named ML_Create_Meta_First_Call, from the SAS symbol table.

This is to facilitate interactive development of listings that call ML_Create_Meta.

```
*****;
```

```
%if %symexist(ML_Create_Meta_First_Call) = 1 %then %do;
```

```
    %PUT %STR(ALERT_I: The macro variable ML_Create_Meta_First_Call will be  
removed from the symbol table);
```
